

# PanAfGeo

The **PanAfGeo project** is a platform for the exchange of experience and knowledge, it is a network of mutual contacts between thousands of African and European specialists from different fields of geology, a fusion of young and experienced scientists.

**PANAFGEO IS A PROJECT THAT PROVIDES THE OPPORTUNITY TO CREATE AN EXTRAORDINARY MASTERPIECE:**

**GEOLOGY OF AFRICA!!**

Maybe in these pictures are the authors of the articles of this monograph, maybe you want to join them?

Would you like to know more details?

## MONOGRAPH:

THE MONOGRAPH WILL CONSIST OF ARTICLES ON THE GEOLOGY OF EACH AFRICAN COUNTRY PREPARED BY TEAMS OF AUTHORS ACCORDING TO A UNIFORM SCHEME:

**i** Introduction (basic information about the country, state of geological recognition),  
Outline of the geological structure (structural geology, tectonics, stratigraphy, etc.),  
Mineral resources potential,  
Geohazards (natural and human induced),  
Geoheritage,  
Summary, including challenges and problems to be solved,  
Bibliography.

**➤** Each article would have to contain specific graphical figures (especially maps). The part devoted to individual countries would be preceded by a few articles compiling for the entire continent.

## GET IN TOUCH:

**Prof. Stanislaw Wolkowicz**

Polish Geological Institute – National Research Institute  
Warsaw, Poland

[stanislaw.wolkowicz@pgi.gov.pl](mailto:stanislaw.wolkowicz@pgi.gov.pl)

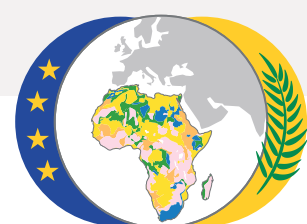

The job seems to be huge. But we must also remember that there will be more than 200 authors of such a monograph. In my opinion, such a monograph would be an excellent proof of the durability of the effects of PanAfGeo Project.

*together we can do it!*
